Invitation

We take immense pleasure to announce that we are going to organize a one day International Seminar on “*Natural Disaster and its Management*” on 9th February, 2018 (Friday), in collaboration with I.Q.A.C. Renowned academicians from Universities abroad, eminent scholars from national Universities, Colleges and other institutions of the state and outside are going to grace this seminar with their

valued lectures and illuminating presentations. We earnestly and cordially solicit the august presence and active participation of all concerned at the seminar.

**Sincerely yours,
Prof Arunodaya Bose
Teacher-in-Charge,
Sabang Sajanikanta Mahavidyalaya**

Sub-themes

1. Global Warming Induced Natural Disaster
2. Anthropogenic Interferences in Nature
3. Man Made Natural Disaster
4. Forest-fire: Its Causes and Prevention
5. Present Cultivation: Threats to Food Security
6. Draught Resistance
7. Earthquake and its Management
8. Earthquake: Science and Myth
9. Carbon Trading: A Way to Mitigate Environmental Degradation.
10. Any other Related Topics.

Theme of the Seminar

Natural disaster follows natural hazard (e.g., volcanic eruption or earthquake) which affects humans. Human vulnerability, caused by the lack of appropriate emergency management, leads to financial, environmental, or human impact. Disaster Management can be defined as the organization and management of resources and responsibilities for dealing with all humanitarian aspects of emergencies, in particular preparedness, response and recovery in order to lessen the impact of disasters. A disaster is a sudden, calamitous event that seriously disrupts the functioning of a community or **society** and causes human, material, economic or environmental and even human losses that exceed the community's or society's ability to cope up with its own resources. Though often caused by nature, disasters can have human origins. This Seminar is an endeavour to explore the various reasons of natural and anthropogenic causes of disaster, its management and available preventive measures or perceivable early signs and also various issues related to that.
